Global Partner Engineering

Cisco Cloud Control

FY27 Partner Enablement Plan

Last updated: September 20, 2026

Executive Summary

Partner Strategy & Journey Alignment

PRODUCT

Cloud Control

Cross-Domain Operations

Unified operating layer

One login, inventory, topology, alerts

AI Canvas

Cross-Domain Agentic Ops

Multiplayer agentic workspace

Cross-domain investigation

Cloud Control Studio

Custom IP & Services

App Builder, Agent Builder, Marketplace

Governed agents, custom workflows

STRATEGY

1. Platform Activation
2. Customer Value Realization
3. Partner Differentiation

JOURNEY

Awareness › Adoption › Portfolio Pull-Through › Services Development › IP Development

© 2026 Cisco and/or its affiliates. All rights reserved.

Partner Enablement & Sales Assets

PARTNER ENABLEMENT (CISCO → PARTNER)

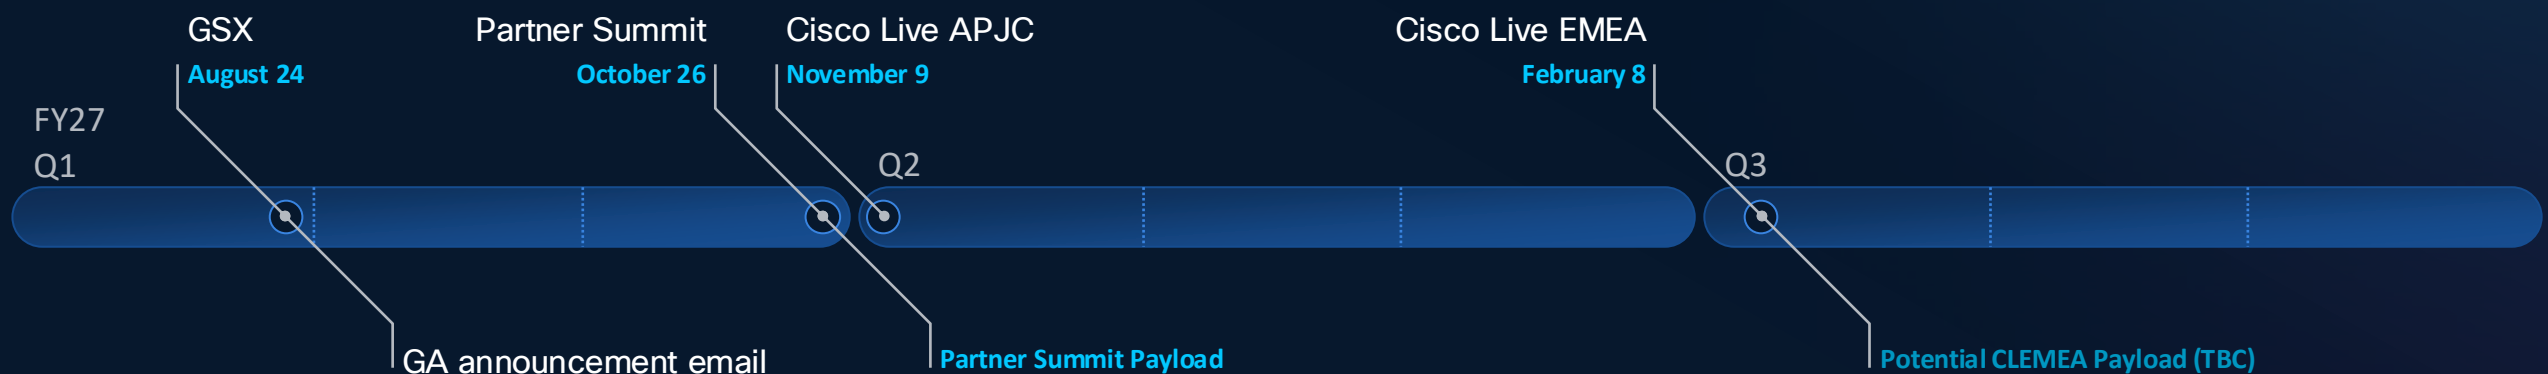

- ✓ Partner Launch Toolkit
- ✓ Solution Preview Training
- ✓ Competitive Battlecards
- PIW, PSW, VoAM/SE
- Sales Foundational Stage 1 Black Belt
- Presales Foundational Stage 1 Black Belt
- Partner Summit Showcase
- Presales Proficiency Stage 2
- Operations Stage 1+2
- Sales Proficiency Stage 2
- Presales Advanced Stage 3
- Agentic Ops Service Creation Workshop
- Developer Training

PARTNER ASSETS (PARTNER → CUSTOMER)

- ✓ Live dCloud Demo
- Agentic Ops Customer Discovery Workshop
- Agentic Ops Readiness Assessment
- Hackathons

© 2026 Cisco and/or its affiliates. All rights reserved.

Partner Enablement Timeline FY27

GA announcement email to all N. AMER partners

Partner Summit Payload

Sales Stage 1 Black Belt
Presales Stage 1 Black Belt
Solutions Showcase

Potential CLEMEA Payload (TBC)

Cisco –> Partners (scaled):

- Presales Stage 2 Black Belt
- Operations Stage 1-2 Black Belt

Cisco –> Partners (high-touch):

- Agentic Ops Service Creation Workshop

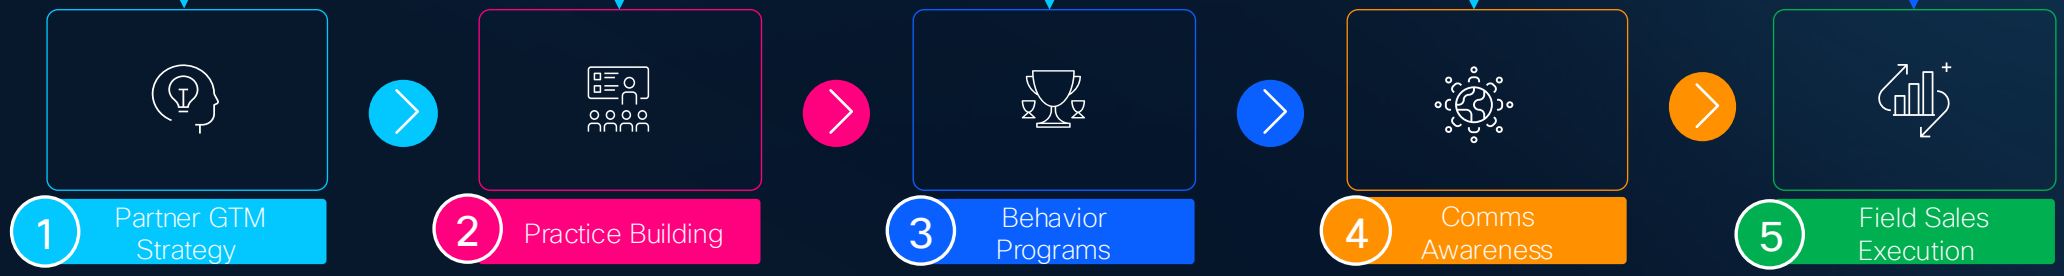

© 2026 Cisco and/or its affiliates. All rights reserved.

Partner Enablement Dependencies

Deliverables	Deliverable Dependencies (Owner)	Funding Dependencies
Customer Onboarding Guide	Onboarding documentation (BE) – for partners who are onboarding customers	$5K
Sales Stage 1 Black Belt	Updated BDM decks (PMM)	n/a
Presales SE Stage 1 Black Belt	Updated TDM decks (PMM), updated dCloud lab (dCloud)	n/a
Operations Stage 1 Black Belt	Updated product documentation (BE), updated live lab environment (dCloud)	$175K for Learning Partner to develop content
Sales Stage 2 Black Belt	CC Studio availability and documentation (BE)	$75K for Learning Partner
Presales SE Stage 2 Black Belt	CC Studio availability and documentation (BE), live dCloud lab with CC Studio access	$125K for Learning Partner
Operations Stage 2 Black Belt	Updated product documentation (BE), updated live lab environment (dCloud)	tbd
Agentic Ops Service Creation Workshop	tbd	tbd
Agentic Ops Customer Discovery Workshop	tbd	tbd
Partner Summit Showcase	Live demo environment w/ platform integrations – specific requirements TBD	tbd

Global Partner GTM Framework

5 Phases of Strategy & Execution

Strategy & Planning

Partner Strategy Plan
- Partner Value Proposition
- Partner Stratification
- TAM by RTM
- Solution Offer, X-Arch Selling Offer, Use Cases
- Buying Programs, Pricing, Profitably

Success Metrics & Goals
- Sales scope & success metrics, $ impact
- ELT consensus & agreement
- Strategic investments, reporting process
- Dashboards, performance tracking

Practice Enablement

Content Development
- Persona Based
- Competitive
- Cisco Events *(Partner Summit, CL)*
- Landing Pages *(Networking for Partners, Secure Networking for Partners)*
- Campaigns (Partner/Customer, Ecosystem ISV, Cloud, GSI alignment)

Training Enablement
- On-Demand *(Blackbelt, QDF, Partner Tech Elevate, dCloud, Cisco U)*
- Virtual *(#60, PIWs, VoE, VoAM, IDEA)*
- Onsite *(PVT, ILT, Roadshows)*
- High Touch *(MINT)*
- Competitive *(Competitive Takeout)*

Specializations Content & Design
- Next Gen, Competencies

Cisco 360 Program

Partner GTM Alignment

Backend Rebates Alignment
- Lifecycle Incentives *(CPI)*
- Demand Gen Incentives *(DGI, MOUs)*
- Seller Incentives *(Assessments, Seller Rewards)*
- X-Arch Incentives *(Cross Sell Bonus)*

Upfront Discounts Alignment
- Architectures Offers
- Hunting/Teaming
- FastTrack
- NFR

Comms & Awareness

Comms Content Development
- Internal Newsletter *(Take 5, The Set List)*
- External Newsletter *(Networking for Partners Newsletter)*
- Marketing Landing Pages *(Partner Hub, Launch Hub)*
- Tailored GTM messaging to audience *(TE, Security, IoT, Distribution, Managed Services; ISV, Cloud, GSI)*
- *Prepare internal sales readiness to Partner Sales*

Announcement
- EVP/SVP Announcement Emails & cascade comms e.g. newsletters, blogs, social media
- Integrate into Cisco & industry events; sessions and stage announcements

Field Sales Deliver to Partners

Sales & Technical Readiness
- Partner Sales leadership alignment on strategy & success goals | Leader All Hands
- Partner Networking Sales All Hands Readiness training

Executive Alignment I Industry Events
- Partner business interlocks *(PGBs, EBCs, PAWs)*
- Partner executive touchpoints *(CL, Partner Summit, PECs, PVT, Cloud & Industry Events, Gartner, IDC)*

Field Execution | Performance
- PAE / partner enablement execution | Managed in region
- Partner Performance:
- Pipeline / Deal Reg; Growth; enablement report
- Sales sprints; discretionary $
- Co-sell cloud and ISV sales

Global Partner Engineering

Cisco Confidential

Enablement Framework (Needs update)

Where We Are

- **Controlled Availability:** Cisco Cloud Control is live and partners are already onboarded
- **Co-led program:** Thunai and Joel lead the CA partner program, Dave leads enablement
- **Multi-domain platform:** Networking, Security, Compute, Observability, Collaboration
- **Platform-first:** partners engage multi-domain from day 1 — the platform's power is cross-domain
- **Today's goal:** align on the enablement approach and refine multi-domain plays together

THE PARTNER PROMISE

Exclusive Influence | **Dedicated Support** | **Flexible Engagement**

© 2026 Cisco and/or its affiliates. All rights reserved.

What Is Cloud Control

A unified operating layer — not a portal. Platform services span identity, inventory, topology, correlation, and AI.

Cloud Control

One login, inventory, topology, alerts

Unified AI Assistant

Quick answers; escalates to Canvas with context

AI Canvas

Multiplayer agentic workspace for cross-domain investigation

Cloud Control Studio

Agent Builder, App Builder, Marketplace

Included with eligible subscriptions — partner value is pull-through + services.

© 2026 Cisco and/or its affiliates. All rights reserved.

Start at the Platform – Multi-Domain from Day 1

Multi-domain platform

DAY 1

3+ linked domains: one inventory, topology, alert view

Cross-domain AgenticOps

CORE VALUE

"Why is our finance app slow?" in AI Canvas

Partner IP & services

DIFFERENTIATE

Governed agents, custom workflows, managed ops

- **Platform-first:** no single-domain on-ramp — qualify for 3+ domains
- **Anchor, not ceiling:** lead with the strongest domain into a multi-domain engagement

© 2026 Cisco and/or its affiliates. All rights reserved.

Anchor → Multi-Domain Plays – For Discussion

Anchor domain	Anchor products	Multi-domain play the partner leads with
Networking	Meraki, Catalyst SD-WAN	Branch experience across Net + Security + Observability
Security	Security Cloud Control, Secure Access	Governed vuln mgmt across Security + Networking + Compute
Compute	Intersight, Nexus Dashboard, HyperFabric	DC health + fabric congestion across Compute + Observ. + Net
Observability	Splunk Cloud, ThousandEyes	Historical + live + action across all domains
Collaboration	Webex Control Hub	Call-quality root cause across Collab + Networking + Observ.

Each partner leads from its anchor domain into a multi-domain engagement — input welcome.

© 2026 Cisco and/or its affiliates. All rights reserved.

Cross-Domain & AgenticOps

"Why is our finance app slow?"

Net + Security + Compute + Observability

"Did our firewall change break productivity?"

Security + Networking

"Poor Webex quality at HQ"

Collaboration + Networking + Observability

AgenticOps — beyond AIOps

- Agents gather evidence, maintain context, and drive governed workflows end-to-end
- AI Canvas : a supervisor agent delegates to domain agents; humans stay in control
- Cloud Control Studio: custom agents, runbooks as skills, ecosystem integrations, Marketplace

© 2026 Cisco and/or its affiliates. All rights reserved.

CAFE Framework & Partner Journey

CAFE — shared enablement structure

Roles

Business Seller · Technical Seller · Deployment Engineer

Stages

Foundational → Proficient → Focus & Depth

Partner maturity (BU model)

Level 1 — domain on 3+ platforms

Level 2 — workflows, automation, integration services

Level 3 — Marketplace, agents, ecosystem (Agent / App Builder)

LEARNING JOURNEY

Delivered via Black Belt (on-demand, PVI-linked) + high-touch workshops — see next slide.

© 2026 Cisco and/or its affiliates. All rights reserved.

How Partners Learn – On-Demand + High-Touch

PROPOSED DIRECTION — NOT COMMITTED

Black Belt — on-demand

Scalable baseline for all partners · self-serve · PVI-linked · certification gate

Tracks = CAFE roles: Sales · Pre-Sales · Deployment

Each Stage 1 → 2 → 3 · multi-domain by design

High-touch workshops

Accelerators layered on the on-demand baseline

For the CA cohort + Level 2–3 partners

PARTNER ENABLEMENT (CISCO → PARTNER)

- Joint Business Planning
- Hands-on dCloud Lab
- Developer Deep-Dive
- Service Creation
- PS Solutions Showcase

PARTNER-DELIVERED (→ CUSTOMER, "IN-A-BOX")

- Agentic Ops Discovery Workshop-in-a-Box
- Health Check
- Readiness Assessment

Phasing: Solution Preview live today → Stage 1 → 2 → 3 phased CA → GA (aligned to Quarterly Development Focus).

© 2026 Cisco and/or its affiliates. All rights reserved.

Building the Plan Together

- **Woven journey:** multi-domain plays and labs mapped into the partner learning journey
- **Delivered via:** Black Belt on-demand + high-touch workshops (enablement and partner-delivered)
- **Shared workspace:** a team space and regular touchpoints to iterate
- **Team review:** partner-facing content gets a review before it ships
- **Deeper reference:** the full enablement plan is available for review

SERVICES PARTNERS CAN SELL

Assessment | **Onboarding** | **Workflow design** | **Custom agents** | **Managed ops**

© 2026 Cisco and/or its affiliates. All rights reserved.

Workstreams

Partner Workstreams

Workstream	Deliverables	GPS Lead	Key Collaborators	Timeframe
Partner Adoption, Experience & AgenticOps Solutions	• AgenticOps & cross-domain use cases (AI Canvas, Splunk, ServiceNow, ThousandEyes..etc) • Partner integrations with Agent Studio (partner-built agents, partner IP) • Solution IP & technical-depth SME (reference architectures, Level 2 design) · Onboarding motion, Alpha/Beta/CA → GA at scale (Partner run, PSE-supported by GA) · Voice of the Partner → product & roadmap input (AgenticOps Partner Community) · Experience, adoption & outcomes; repeatable motion with GEOs · Partner references, testimonials & partner-led pipeline	Joel J	• BE Partner GTM • GPS Architecture Sales & PGA • GEOs Product Marketing CCC Field and BE Champions	Ongoing
Partner Enablement Plan (Cloud Control)	• Partner Enablement Plan • Role-based training • Live workshops • Services assets • Partners update vehicles (#30/60 webinars, PIW, PVT, Insider series,) • Alignment with one Cisco messaging & partner maturity	Sandhan	• BE Partner GTM • GSS Sales Enablement • GSS Engineering • Product Marketing • GPE Architecture Workstreams	Ongoing
Partner Enablement Plan for integration of CC into architecture enablement portfolios		GPE & PGA (Workstream)		
Reporting & metrics	• Reporting & metrics	Tracy T	• BE Partner GTM • GPS Architecture Sales & PGA • GEOs	Ongoing
Comms Planning	• Partner messaging • Email campaigns • CA Partner success stories & Updates	Rudy A	• BE Partner GTM • Workstream leads	Ongoing
GTM Strategy	• Partner landing page • Partner Announce Guide & FAQ • Partner Campaign Assets • Channel Attribution (operational solution for establishing Partner of Record status for activated customers (e.g. zero-dollar deal registration)) • Incentives (seller rewards, CPI rebates (PVI alignment), LCI/Assessments incentives, MOUs)	Victoria V	• BE Partner GTM • Product Marketing • Partner Marketing • SalesConnect publishing team • GRS Sales Operations	Q4
Partner Summit	• Solutions Showcase • BI sessions • Partner & executive comms	Greg G	• BE Partner GTM • Partner Marketing • One Cisco marketing • Event Marketing	Q1

Post-GA

- APO – GA – exclusive sessions for top partners – architecture leads, SREs – internal TTT
  - AM & SE = same content – not deep dive, no partner onboarding
- APO – all partners
  - Geo webinars
  - Newsletters
- RoW – all partners - similar content as APO
  - Geo webinars
  - Newsletters
- Questions
  - Who will coordinate the webinar schedules – Sandhan, Ashley?
  - WHEN will BU be ready to deliver awareness webinars
  - HOW much can they scale
  - WHO is developing the content
- Newsletter should have link to scheduled webinars, so these need to be scheduled
- Sandhan will:
  - Find out who for each top 12 account we will coordinate with (PAE, architecture lead)
- Dave will:
  - Reach out to Stephen Colucci (scolucci) for Presidio

© 2026 Cisco and/or its affiliates. All rights reserved.

Open issues

- Partner onboarding support
  - Nihar has a team of Solution Readiness Engineers (SREs) that could help
  - Cisco Communities
- Need to address difference between:
  - (a) enablement on CC itself – onboarding, cross-domain features, reporting, troubleshooting with AI Canvas, Agent and App Builder
  - (b) convergence of CC into the architectures – how you use CC to manage networking, compute etc

© 2026 Cisco and/or its affiliates. All rights reserved.

Updated as of: 07-07-2026
Expiry date: 31-12-2026
Current Release Phase: Controlled Availability (June 2026)

Ideal Partner Profile – Cisco Cloud Control + AI Canvas

Ideal Partner Demographics

Partner Tier
U.S. partners who have attained Preferred Partner status (PVI 7.5+) in, at minimum, Networking and Security

Partner Types
Integrators (VAR, SI, GSI)
Providers (MSPs managing single-tenant customer environments)

Partner Practice
Strong multi-domain Cisco expertise (3+ architectures)

Services-led business model with managed and/or professional services capabilities

Focused on AI-led operational transformation, visibility, and lowering MTTR

Partner Regions
U.S.- based or capable of supporting U.S.-hosted, English-only environments
Exclude: EMEA, APJC, and restricted countries

Cisco 360 Architectures
Networking (Meraki, Catalyst Center, Catalyst SD-WAN, ThousandEyes)
Security (Security Cloud Control)
Cloud & AI (Intersight, Nexus Dashboard, Hyperfabric)

Buying Models
No-Cost Entitlement: Not sold as a standalone SKU; included at no additional charge for customers maintaining active, valid subscription licenses for one or more underlying Cisco solutions.

Consumption Models
Cisco-hosted SaaS only
Exclude: On-premises, sovereign cloud, multi-tenancy

Operational Models
Customer IT staff, MSP (Single Tenant), IT outsourcing firm

Customer Segment Focus
- Segment: Enterprise, Commercial Select+
- Existing Cisco Customers with 3+ products in production
- Exclude: Government, Sovereign Cloud or Air Gapped requirements

Evaluation Questions
Does the partner have an existing install base of Enterprise and/or Commercial Select+ customers utilizing 2+ Cisco controllers (Networking, Security, Data Center)?

Is the partner equipped to deliver and support SaaS-only, AI-enabled operational tools?

Is the partner equipped to migrate customers to Cisco Unified Identity?

© 2026 Cisco and/or its affiliates. All rights reserved.

PARTNER LIFECYCLE ROADMAP

Cisco Cloud Control: Partner Enablement Progression Model

STAGE 1: AWARE STATE
Awareness & Strategic Alignment

Build partner executive awareness, communicate value positioning, and broad ecosystem engagement.

- **Target Audience:** Partner Leadership, PAMs, and Regional/National Partner Teams
- **Key Focus:** Positioning Cisco Cloud Control value proposition and identifying GTM opportunities
- **APO 1:1 National Series:** Exclusive 1:1 sessions (2-hr min) for 12 Top Partners (WWT, Presidio, CDW, Computacenter, Insight, HSI)
- **APO Newsletter:** Broad outreach to 10,000+ subscribers across Partner Org (in transition due to LFG)
- **Regional Broadcasts:** Voice of Engineer (VoE) & Voice of Partner SE (VoPSE) broadcasts for all regional partners (Can be done in Aug) & PIW.
- **EMEA & APJC:** PIW can be done as per availability
- **Programmatic Scale: Global** #60PartnerSuccess campaign planned for Q1 execution based on resource availability
- **Blackbelt Stage 1 :** Scale content for Partner Enablement

STAGE 2: Demonstrate
Deep-Dive & Hands-On

Deliver high-touch presales technical validation and interactive hands-on lab experiences.

- **Target Audience:** Partner Pre-Sales Engineers (PSE) & Technical Practice Leads
- **1:1 National Series:** Exclusive 1:1 sessions (2-hr min) for 12 Top Partners (WWT, Presidio, CDW, Computacenter, Insight, HSI)
- **Interactive Enablement:** dCloud Demos & Capture The Flag (CTF) for deeper technical engagement
- **APJC Regional PIW: TBD** (3-4 weeks notice for ANZ, SG, Thailand)
- **Blackbelt Stage 2 & 3 :** Scale for Partner Enablement

STAGE 3: Delivery
Deployment & White-Glove Support

Accelerate customer deployment, eliminate technical adoption blockers, and scale partner success.

- **Target Audience:** Partner Deployment Engineers & Alpha/Beta Stage Partners.
- **Key Focus:** Achieving operational readiness and production deployment velocity across top partner accounts
- **BE-Led White Glove:** Help drive onboarding for the customers.
- **SRE White-Glove:** Dedicated Solution Readiness Engineering (SRE) White-Glove services for partners stuck in Alpha/Beta stages
- **Adoption Acceleration:** Hands-on engineering triage to ensure seamless transition from pre-sales to active cloud deployment
- **Partner Support Space:** Dedicated Webex Support Space for real-time queries related to Cisco Cloud Control or Community Page.

© 2026 Cisco and/or its affiliates. All rights reserved.

APO REGIONAL STRATEGY

AMER: Partner Awareness

National Partners (High-Touch 1:1)

- **Target Scale Partners:** Focusing on top-tier partners: WWT, Presidio, CDW, Computacenter, Insight, HIS etc.
- **High-Touch Engagement:** Exclusive 1:1 sessions organized for 12 key partners to ensure complete individual alignment. Session Length: 2hrs.
- **Continuous Series:** Structured back-to-back weekly series running through the target August window.
- **Technical Preference:** Heavy focus on interactive components, integrating Cisco dCloud Demos and Capture-The-Flag (CTF) environments (Specifically for Pre and Post Sales Engineer)
- **Timing & Cadence:** Target dates set for weeks of August 3rd, 10th, and 17th. Tuesday/Thursday slots reserved exclusively.

Regional Partners & Mass Scale

- **Regional Broadcast Channels:** Delivery via 'Voice of Engineer' and 'Voice of Partner SE' broadcasts during the September timeline.
- **Ecosystem Support Space:** Establishing a persistent Webex Space dedicated to unblocking partner queries regarding Cisco Cloud Control.
- **Mass Messaging Scale:** Leveraging programmatic emails/newsletters sent to 10,000+ subscribers across partner organizations.

© 2026 Cisco and/or its affiliates. All rights reserved.

APJC REGIONAL STRATEGY

APJC: Internal Sales & Partner Channels

Internal Sellers

- **Briefing Timeline:** On-demand webinars
- **Optimized Format:** Condensed, high-impact 1 to 1.5-hour sessions targeting core value propositions.
- **Collaboration Spaces:** Persistent internal Webex Space established and maintained specifically for AMs and SEs.
- **Readiness Check:** Focused on sales qualification rules, pricing, and collateral positioning on SalesConnect.

Partners

- **On-Demand Partner SE PIW:** Partner Innovation Workshops (PIW)
- **Early Notice Requirement:** Early campaign planning is critical. Australia, Singapore, and Thailand require 3 to 4 weeks advanced notice.
- **CAI SEVT Integration:** Can target CAI SEVT technical conference in September to launch Cisco Cloud Control (CCC) awareness
- **Engineering Mindshare:** Scaling content delivery through highly structured technical tracks targeting regional partner engineers like Blackbelt

© 2026 Cisco and/or its affiliates. All rights reserved.

Cisco Cloud Control: Partner Enablement Execution Rollout plan

Internal rollout plan (Completed and Planned)

External rollout plan

Cisco Confidential

GLOBAL SCALE GTM

Global Initiatives: Sales & Partner Channels

Global Internal Sales Channels

- **Cisco Insider Series:** Primary GTM vehicle for global sales, presenting the overall Cloud Control business case.
- **Networking Need to Know (NN2K):** Specialized internal alignment call engineered specifically for sales counterparts within the Networking group.
- **EngiLive Platform:** Global broadcasts focused on internal engineering field readiness and architecture.

Global External Partner Channels

- **Global Partner Newsletter:** Currently in a strategic optimization and structural transition phase due to LFG reorganization.
- **Mass Communication Scale:** Will broadcast unified messaging to over 10,000+ partner subscribers post-transition.
- **#60PartnerSuccess Campaign:** Targeting high-velocity external success tracks for full execution in Q1 based on resource availability.

A concentrated partner landscape

The top 10 partners cover more than half of ICP customers, with CDW leading across 12 of 14 controllers.

PARTNER UNIVERSE

659

Unique partners represented across the landscape of customers in the ICP

CUSTOMER SCOPE

5,040

customers in scope – meeting the criteria set out in the ICP

TOP 10 COVERAGE 52%

2,610

customers covered by the top 10 partners

CDW AS PRIMARY 19%

956

customers with CDW as their primary partner

CDW LEADERSHIP

12 / 14

controllers led by CDW

Broad-based dominance

CDW leads across the landscape—not only in the largest controller categories.

NEXUS ONE

47 vs 42

WWT **CDW**

A close second

In the second-smallest controller, CDW trails WWT by only five customers.

HYPERFABRIC

3 / 2 / 2

Presidio • Insight • Trace3

Low-volume outlier

Current volumes are too small to indicate a stable partner hierarchy.

Learnings from Partners Cisco Cloud control onboarding

- Partners consistently view Cloud Control as a promising, well-designed unifying platform - cross-launch and global inventory/topology are standout strengths (WWT; Computacenter fully committed to the vision).
- AI Canvas is showing real utility - it solved an actual network bug for Accenture, and there is strong interest in agentic ops (NTT building custom agents; CDW and WWT into Studio alpha).
- Partners are Cisco Cloud control studio with Agent / APP builders is a great opportunity for the ecosystem and Agentic workflow automation

- Need to update Ideal partner profile with minimum 3+ domains
- Documentation on product capabilities , integration and supported platforms
- Clarity on Customer engagement through partners, partner entitlements on domain controllers
- Concept of single super admin / read only access is a big operating model change for partners & customers.
