

WEBVTT

f80a053c-bd67-40de-a868-82fab9540b49-0

00:00:00.040 --> 00:00:03.642

All right, AI Assistant,
how many guys have been excited about our

f80a053c-bd67-40de-a868-82fab9540b49-1

00:00:03.642 --> 00:00:07.998

journey with AI Assistant and everything
that we're doing from adding additional

f80a053c-bd67-40de-a868-82fab9540b49-2

00:00:07.998 --> 00:00:09.880

features for the same price, right?

c3d66e77-62f5-4e50-a9a9-23a11618c650-0

00:00:10.120 --> 00:00:14.200

So these are the different features of AI
Assistant.

98420c12-8172-4340-a179-ceb2b0dc8dfe-0

00:00:14.360 --> 00:00:19.220

We have things that are technically more
focused on helping agents do their job,

98420c12-8172-4340-a179-ceb2b0dc8dfe-1

00:00:19.220 --> 00:00:24.140

things that are technically focused and
helping and assist the customer scenario,

98420c12-8172-4340-a179-ceb2b0dc8dfe-2

00:00:24.140 --> 00:00:27.080

so the customer experience as well as the
agent.

b6c63914-759f-456f-b15a-e1cfb06b34f5-0

00:00:27.360 --> 00:00:29.520

And then we have some things that are
supervisors.

866b9dd6-7efb-4d7d-9f7d-03f0b6d5788c-0

00:00:29.840 --> 00:00:33.600

So when we look at this,
we have multiple different areas.

01ccd6bc-cbda-47fb-9761-d61f6bb952f9-0

00:00:34.720 --> 00:00:36.360

Who knows what real time assist is.

eda2e909-ad69-411e-9b6c-e1d8683b4228-0
00:00:37.800 --> 00:00:42.875
I love that because we'll be going in
real time assist is what we were

eda2e909-ad69-411e-9b6c-e1d8683b4228-1
00:00:42.875 --> 00:00:48.021
originally going to be calling or,
or what we've now recalled suggested

eda2e909-ad69-411e-9b6c-e1d8683b4228-2
00:00:48.021 --> 00:00:53.240
responses and or agent answers back in
the old days without AI included.

744bcc5c-f122-43e9-bdc1-6eb2087b1d37-0
00:00:53.240 --> 00:01:01.259
So real time assist is our knowledge base
to our agents that actually helps them to

744bcc5c-f122-43e9-bdc1-6eb2087b1d37-1
00:01:01.259 --> 00:01:07.560
be able to answer questions quickly it oh,
and rate in real time.

2c032682-2b92-451c-8e39-9bd78806933e-0
00:01:08.600 --> 00:01:09.080
There we go.

88b9db07-5be2-42e4-aac1-ca9055839f2b-0
00:01:09.440 --> 00:01:11.480
So they're real time assisting our agents.

0b36e845-b553-44c0-847b-913ca541dcbe-0
00:01:12.360 --> 00:01:16.160
So we're going to go jump in a little
deeper on a few things.

d603fd46-522b-44d1-92ea-9367cb5bf44c-0
00:01:16.520 --> 00:01:17.760
Let's see.

51319656-c6db-474d-8500-86183be69be9-0
00:01:17.760 --> 00:01:19.720
So we were talking about the real time
assist.

29391151-8e18-4ca9-8ee8-187b092fc036-0
00:01:19.720 --> 00:01:20.600
What is it?

42289f40-0518-4e5d-b35c-62c170cb5e6e-0
00:01:21.400 --> 00:01:24.964
It's a proactive intelligence servicing
knowledge,

42289f40-0518-4e5d-b35c-62c170cb5e6e-1
00:01:24.964 --> 00:01:27.480
next steps and automating workflows.

664acc42-c982-46ce-a855-36b09f236c72-0
00:01:27.480 --> 00:01:33.552
So how many of you guys use those little
widgets setting up widget that's not the

664acc42-c982-46ce-a855-36b09f236c72-1
00:01:33.552 --> 00:01:34.960
right word actions.

a65380a8-402f-45a4-8208-821fc256e88c-0
00:01:36.240 --> 00:01:41.120
So you are as an agent is on a call,
we want to check some things.

497f2256-fb40-46c2-b491-1a9f3e10bbcd-0
00:01:41.120 --> 00:01:47.729
We press a little macro button and it
authenticates the user actually can do

497f2256-fb40-46c2-b491-1a9f3e10bbcd-1
00:01:47.729 --> 00:01:48.760
other tasks.

e4a47dba-ae20-452d-9310-a45e480a5838-0
00:01:49.200 --> 00:01:52.920
How many of you guys have ever sold that
solution inside of our agent desktop?

c3ec3858-aa49-477c-987c-d61c17dcce5c-0
00:01:53.880 --> 00:01:54.480
Interesting.

dabdf68a-a463-4536-9e19-a6707db9c3bf-0
00:01:54.840 --> 00:01:59.878
So you do know that we can set up inside
of the agent desktop a little button for

dabdf68a-a463-4536-9e19-a6707db9c3bf-1
00:01:59.878 --> 00:02:04.486
the agents to click on something and it

can go send them a text message to

dabdf68a-a463-4536-9e19-a6707db9c3bf-2
00:02:04.486 --> 00:02:06.760
authenticate them as through the Duo.

ed31b7b7-090d-4c90-9f0b-8dc4e7a95389-0
00:02:07.160 --> 00:02:13.457
We're going to sell the one Cisco
solution through Duo and we can have that

ed31b7b7-090d-4c90-9f0b-8dc4e7a95389-1
00:02:13.457 --> 00:02:15.280
set up inside of here.

f320a91b-4669-41b2-af31-14225d649515-0
00:02:15.280 --> 00:02:19.716
We can also do those kind of things
through the Cisco AI assistant real time

f320a91b-4669-41b2-af31-14225d649515-1
00:02:19.716 --> 00:02:20.120
assist.

e20ca7ec-2cd8-4a4f-9817-2ddf186c83b6-0
00:02:20.120 --> 00:02:23.327
So we're actually being proactive and
making sure that the agents are knowing

e20ca7ec-2cd8-4a4f-9817-2ddf186c83b6-1
00:02:23.327 --> 00:02:26.000
what the next steps they need to do based
upon the conversation.

15b72896-b460-45ba-88da-8155a9fbe8a5-0
00:02:26.520 --> 00:02:28.720
It's a great way to sell something like
to help them.

57e18d9a-321f-4d08-9f9a-649858c548c8-0
00:02:29.000 --> 00:02:30.880
Their agents really like level up to that.

7ecccc39-8e22-4039-9b4c-13edde222f22-0
00:02:30.880 --> 00:02:33.825
You know, like, in other words,
you've got somebody who's not as skilled

7ecccc39-8e22-4039-9b4c-13edde222f22-1
00:02:33.825 --> 00:02:36.367

as somebody who's, you know,
been here for 10 years that they,

7ecccc39-8e22-4039-9b4c-13edde222f22-2
00:02:36.367 --> 00:02:39.474
and that's a rarity in a contact center
anyway to having an agent who's been

7ecccc39-8e22-4039-9b4c-13edde222f22-3
00:02:39.474 --> 00:02:40.080
there 10 years.

e26ccbcd-0f2e-47c8-886d-829c3d304e27-0
00:02:40.320 --> 00:02:44.120
But this will help them because it's
providing them suggested responses.

5372ebe3-5fa7-4448-ae58-0c9c47501c58-0
00:02:44.120 --> 00:02:45.932
Exactly what,
what's the next thing that what's the

5372ebe3-5fa7-4448-ae58-0c9c47501c58-1
00:02:45.932 --> 00:02:46.560
next step to take?

eb0400cd-b8e2-4226-8766-bc82e86e60cc-0
00:02:46.560 --> 00:02:48.674
You know, what, what's,
what's potentially, how should we,

eb0400cd-b8e2-4226-8766-bc82e86e60cc-1
00:02:48.674 --> 00:02:49.320
we should do this?

8d7c8102-b4b6-4306-a57d-86df8744aede-0
00:02:49.320 --> 00:02:52.065
So,
So what this can actually do is help

8d7c8102-b4b6-4306-a57d-86df8744aede-1
00:02:52.065 --> 00:02:57.624
level up your agents quicker to make sure
that they are able to take conversations

8d7c8102-b4b6-4306-a57d-86df8744aede-2
00:02:57.624 --> 00:03:01.040
with your,
with their customers quit more quickly.

249deb98-88f7-4817-a7e6-cbd6437957d1-0
00:03:01.040 --> 00:03:04.451
Instead of having to learn all of this
knowledge right off the bat,

249deb98-88f7-4817-a7e6-cbd6437957d1-1
00:03:04.451 --> 00:03:06.760
we're able to kind of hand feed that to
them.

55589a81-2ffa-49c5-88b7-9b47da780d6c-0
00:03:06.760 --> 00:03:10.547
So they are learning as they're going
instead of being in a training atmosphere

55589a81-2ffa-49c5-88b7-9b47da780d6c-1
00:03:10.547 --> 00:03:14.240
for six weeks while they're learning the
product or learning these solutions.

18bdfef74-924c-471e-b76d-95819262543b-0
00:03:14.360 --> 00:03:16.240
All right, let's talk about summaries.

520cacef-34e4-4b31-94c6-259c975074b0-0
00:03:16.960 --> 00:03:18.120
We're going to move on from this one.

72e433a1-ea60-425f-849c-c41721134c2a-0
00:03:18.120 --> 00:03:22.438
So call your up summaries,
how many people understand what this does

72e433a1-ea60-425f-849c-c41721134c2a-1
00:03:22.438 --> 00:03:27.320
and think that this was really cool from
a standpoint of customer experience.

f325a0dc-7f74-4dd4-b3fa-abe458c35156-0
00:03:27.320 --> 00:03:30.217
And we were looking at,
remember that first slide we were talking

f325a0dc-7f74-4dd4-b3fa-abe458c35156-1
00:03:30.217 --> 00:03:33.772
about and we were saying this actually
something that helps customers as well as

f325a0dc-7f74-4dd4-b3fa-abe458c35156-2
00:03:33.772 --> 00:03:34.080

agents.

55ab1c3f-52c4-4975-b664-3a8518f92ca2-0
00:03:34.320 --> 00:03:36.896
So the agents going to get that
information,

55ab1c3f-52c4-4975-b664-3a8518f92ca2-1
00:03:36.896 --> 00:03:41.190
but also your customer is going to be
really happy that they don't have to

55ab1c3f-52c4-4975-b664-3a8518f92ca2-2
00:03:41.190 --> 00:03:43.080
repeat everything that they said.

55f7834c-a23c-4594-8471-346dc9656a6d-0
00:03:45.560 --> 00:03:47.720
I know I get frustrated really quick.

c5614c80-dc48-45d2-b181-c9ae3208162e-0
00:03:47.720 --> 00:03:49.600
If something happened, it wasn't my fault.

7f9fa1ac-13ec-4812-a4c7-e4c47edcb880-0
00:03:49.640 --> 00:03:53.160
I'm sitting at home and the agent just
hung up on me.

2f248663-0097-4cc6-858c-f44ea0488ab6-0
00:03:53.600 --> 00:03:57.785
That's what I assume, right,
That they hung up on me And then I had to

2f248663-0097-4cc6-858c-f44ea0488ab6-1
00:03:57.785 --> 00:04:02.324
call back in and I've got to repeat all
of everything I said for the last 20

2f248663-0097-4cc6-858c-f44ea0488ab6-2
00:04:02.324 --> 00:04:04.800
minutes and I'm not going to get anywhere.

61868ef8-9927-41e9-8bb5-d64927f7483f-0
00:04:05.120 --> 00:04:08.280
And I'm frustrated and mad even before
they answered the call.

6037b875-b1f2-4e14-9149-d9892005da8e-0
00:04:08.680 --> 00:04:13.640

So being able to deflect that conversation with something went bad.

8eab76c2-e0e6-4f03-bb79-5bab36bf4323-0
00:04:13.640 --> 00:04:15.560
Things happen in a contact center.

47341402-f546-416f-bb70-04492bb4550a-0
00:04:15.560 --> 00:04:16.680
People are working remotely.

08d8f1a6-2367-43dc-8fcb-e12fe927814b-0
00:04:16.680 --> 00:04:18.320
Their Internet connections are slow.

ce05a5a3-48b8-4110-9856-6b0bf2869ee3-0
00:04:18.320 --> 00:04:22.258
Sometimes things things happen that are out of control,

ce05a5a3-48b8-4110-9856-6b0bf2869ee3-1
00:04:22.258 --> 00:04:27.252
but this can actually help really deescalate a customer scenario where

ce05a5a3-48b8-4110-9856-6b0bf2869ee3-2
00:04:27.252 --> 00:04:28.800
they're upset quickly.

cf888f8-a789-49a1-857a-3e2918897176-0
00:04:29.160 --> 00:04:32.200
And and that's that's a really good feature.

84c8b83a-64ae-4414-be89-f88aa08cfd74-0
00:04:32.440 --> 00:04:36.821
So when we're talking about our customer scenarios,

84c8b83a-64ae-4414-be89-f88aa08cfd74-1
00:04:36.821 --> 00:04:40.360
that may be a really good one to focus on.

9cc79f84-6cb1-475a-ae74-707cc233e8c7-0
00:04:40.440 --> 00:04:41.200
And it's the summary.

38dda6e3-7da7-426f-b3c1-8c7dea2bc83e-0
00:04:41.200 --> 00:04:42.720
It's not the full context,

you know what I mean?

13a4fafa-f24d-4529-bad3-6b65b8977b47-0

00:04:42.720 --> 00:04:45.400

So it's giving that agent they can look really quick and go, yeah,

13a4fafa-f24d-4529-bad3-6b65b8977b47-1

00:04:45.400 --> 00:04:48.440

here's what here's what was talked about before that call got disconnected.

a0dd55c2-6d73-4e7a-b4f9-4e1c150c2666-0

00:04:48.600 --> 00:04:51.840

Let's talk about post call wrap up summaries.

6730f35c-499e-4c06-ab16-05fb7364582e-0

00:04:52.440 --> 00:04:55.530

All right,
so this is something that's great for the

6730f35c-499e-4c06-ab16-05fb7364582e-1

00:04:55.530 --> 00:04:55.880

agent.

2f25ddd7-5de9-4771-bceb-788f956d2b3e-0

00:04:55.880 --> 00:05:00.600

This is something that is great for the customer, surprisingly.

8f1e1c2b-deb9-48f9-8eb5-c13d2f4a9bd7-0

00:05:01.400 --> 00:05:07.258

And also you're looking at something that's great for management,

8f1e1c2b-deb9-48f9-8eb5-c13d2f4a9bd7-1

00:05:07.258 --> 00:05:13.560

so mid call and consult or consult summaries, great for your customer.

e603df2d-c835-44c7-a901-7280705b998b-0

00:05:13.560 --> 00:05:16.949

Scenarios where they actually have multiple departments that are doing

e603df2d-c835-44c7-a901-7280705b998b-1

00:05:16.949 --> 00:05:20.720

things and different departments that are going to be transferring to another.

c3f5a65f-3ec8-406d-874f-531d05f77ac3-0
00:05:21.600 --> 00:05:23.600
Healthcare is a big one that does a lot.

f1d0462b-9054-4ec1-a08a-e90f26a822de-0
00:05:23.920 --> 00:05:30.494
So there's going to be scenarios where
companies could care less about agent

f1d0462b-9054-4ec1-a08a-e90f26a822de-1
00:05:30.494 --> 00:05:34.678
Wellness,
outbound collections agency could care

f1d0462b-9054-4ec1-a08a-e90f26a822de-2
00:05:34.678 --> 00:05:37.240
less about a agent's Wellness.

14129847-5ce8-46af-a688-34c8ee9b292d-0
00:05:37.240 --> 00:05:40.393
They just pipe them in and get them in
and out doing calls and those kind of

14129847-5ce8-46af-a688-34c8ee9b292d-1
00:05:40.393 --> 00:05:40.680
things.

337cf201-2284-4690-984e-398bc01ab867-0
00:05:40.960 --> 00:05:44.361
There is some that it's going to be
really,

337cf201-2284-4690-984e-398bc01ab867-1
00:05:44.361 --> 00:05:49.000
really beneficial and I like to use the
example of Hospice.

99685333-b5c1-4650-a9a5-bb4773138eea-0
00:05:49.040 --> 00:05:52.167
So technically, you know,
a lot of times those Hospice it's

99685333-b5c1-4650-a9a5-bb4773138eea-1
00:05:52.167 --> 00:05:55.400
actually nurses that are answering calls
in a contact center.

766bab21-af7b-45d4-aaa4-ad77ed7ed36d-0
00:05:55.800 --> 00:06:00.273

Those are things that are highly
emotional driven things and conversations

766bab21-af7b-45d4-aaa4-ad77ed7ed36d-1
00:06:00.273 --> 00:06:04.985
and these kind of things can really help
because you want those people to feel

766bab21-af7b-45d4-aaa4-ad77ed7ed36d-2
00:06:04.985 --> 00:06:05.880
like supported.

95802589-7a02-4747-8d41-213a17b2cc32-0
00:06:05.880 --> 00:06:09.379
And there's some really big
differentiators in that when you're

95802589-7a02-4747-8d41-213a17b2cc32-1
00:06:09.379 --> 00:06:11.840
setting up certain scenario contact
centers.

2569eec2-9ed2-4989-8c8d-f06dbd4ed4a6-0
00:06:11.840 --> 00:06:14.887
I'm not saying that this is something
every contact center will do,

2569eec2-9ed2-4989-8c8d-f06dbd4ed4a6-1
00:06:14.887 --> 00:06:15.560
but it is cool.

255f3dcd-09b7-415e-bd9e-7f6674fe452d-0
00:06:15.760 --> 00:06:17.920
It is a something that differentiates us.

47270524-7dde-4c36-9352-e9318ae2b214-0
00:06:18.640 --> 00:06:21.400
And then we also have our,
what's it called?

d0e3dc1b-f9a0-4986-8589-a48a3bdaf001-0
00:06:23.120 --> 00:06:26.950
Well, I mean, even telemed's an example,
like if you know, yeah, telemed,

d0e3dc1b-f9a0-4986-8589-a48a3bdaf001-1
00:06:26.950 --> 00:06:30.160
like if you had psychologists, you know,
talking to patients.

b40c588f-d2a4-47df-98ad-75b5daa2a8a6-0
00:06:30.160 --> 00:06:30.960
I mean, that's another one.

88d188a3-28b0-4a61-bce6-0db33d77b010-0
00:06:30.960 --> 00:06:32.806
Because again,
depending on what kind of cases you're

88d188a3-28b0-4a61-bce6-0db33d77b010-1
00:06:32.806 --> 00:06:33.080
getting.

df419f78-dcca-4422-9b6f-a0f6ef596e4f-0
00:06:33.120 --> 00:06:33.280
Yeah.

bb8c4745-0cb3-420a-94f3-80e12c2d8997-0
00:06:33.680 --> 00:06:36.171
I'm sure that you guys know all about
this,

bb8c4745-0cb3-420a-94f3-80e12c2d8997-1
00:06:36.171 --> 00:06:40.247
that I should have probably put a slide
in about this, about the agent,

bb8c4745-0cb3-420a-94f3-80e12c2d8997-2
00:06:40.247 --> 00:06:41.720
about the offer, you mean?

2bb4dc15-7f32-4496-9140-d39652881cfb-0
00:06:41.720 --> 00:06:42.040
Yeah.

8bda74a8-d3e8-4db1-96cd-67d22db658a5-0
00:06:43.680 --> 00:06:48.031
How many of you guys know about our new,
new adjustment to our offer for AI agent

8bda74a8-d3e8-4db1-96cd-67d22db658a5-1
00:06:48.031 --> 00:06:51.055
and AI assistance,
meaning that we moved from minutes to

8bda74a8-d3e8-4db1-96cd-67d22db658a5-2
00:06:51.055 --> 00:06:51.480
seconds?

61153cf8-8981-49ec-a6c7-f1779bad7b22-0

00:06:52.080 --> 00:06:53.800

Good, I will put a slide in that.

7cad7f83-35bb-41bd-a905-5d605616406f-0

00:06:54.960 --> 00:07:00.232

But but one of the things was originally
I don't know if you guys realized that we

7cad7f83-35bb-41bd-a905-5d605616406f-1

00:07:00.232 --> 00:07:05.378

were going to be charging for additional
languages kind of thinking like a crazy

7cad7f83-35bb-41bd-a905-5d605616406f-2

00:07:05.378 --> 00:07:05.760

model.

6f6c55bc-d7a6-4be2-96e5-dcb5a67bf878-0

00:07:06.360 --> 00:07:08.398

So we were going to say, hey,
if you want Vietnamese,

6f6c55bc-d7a6-4be2-96e5-dcb5a67bf878-1

00:07:08.398 --> 00:07:11.040

you're going to have to pay X amount
extra a month on our old things.

4304fa30-530e-45d3-a421-b5dfefbdefff-0

00:07:11.040 --> 00:07:16.325

So the fact is that we included on the
new offer that has been updated to the

4304fa30-530e-45d3-a421-b5dfefbdefff-1

00:07:16.325 --> 00:07:16.800

second.

17c96fca-4096-4f60-9a12-09c78efd1e5c-0

00:07:16.800 --> 00:07:20.800

One of the other benefits is that all 52
languages are supported.

fe8736be-e61d-4217-b01e-6207a5606a65-0

00:07:20.800 --> 00:07:24.870

And I know people freak out when I see
then they see the word beta up in the

fe8736be-e61d-4217-b01e-6207a5606a65-1

00:07:24.870 --> 00:07:25.240

corner.

e40152d8-4da1-4a13-9a84-0e6e6513f12b-0
00:07:25.240 --> 00:07:26.640
There is a reason behind this.

958724e2-eabf-4310-b1f2-e07cbea0f571-0
00:07:27.880 --> 00:07:33.856
There is languages on here that we just
don't have enough data to be able to have

958724e2-eabf-4310-b1f2-e07cbea0f571-1
00:07:33.856 --> 00:07:36.480
in our real life customer scenarios.

6631baf4-b368-408f-bd28-3d928e0429e0-0
00:07:36.480 --> 00:07:38.000
I'm not going to pick one out, Pick 1.

4b9a901f-1042-4384-abd4-b1ae2924c193-0
00:07:38.000 --> 00:07:39.000
So slap it.

23199a40-491f-4715-a5a5-c13ffdee1be3-0
00:07:39.000 --> 00:07:40.160
I'm just going to go like this.

485c4d5f-0d73-4e8b-b026-fb35fa411dc3-0
00:07:40.800 --> 00:07:41.880
Or we got Icelandic.

6a3f4a3d-932c-4c32-b9e7-4acc1aedee8c-0
00:07:41.880 --> 00:07:42.400
No, you do.

27425376-ca6a-4618-89c8-c0f87d4af05e-0
00:07:42.400 --> 00:07:46.400
And that Hungarian, Yeah,
we could probably get Alexa to do that.

02113f63-7983-4af8-9de7-32f3d946aa62-0
00:07:46.400 --> 00:07:46.560
Zulu.

34c10cd9-8804-4b5c-9a4e-35c45ea1ee30-0
00:07:48.240 --> 00:07:48.600
Yeah.

238f6255-a2ed-4615-a826-693579d0024e-0
00:07:49.040 --> 00:07:50.880
So we don't have a lot of that.

e429e4a4-9fe7-4fc7-89c4-4079b617437c-0

00:07:51.080 --> 00:07:53.994

So what that means,
all that means is that if you have

e429e4a4-9fe7-4fc7-89c4-4079b617437c-1

00:07:53.994 --> 00:07:57.173

customers that want to test this,
if you've got situations,

e429e4a4-9fe7-4fc7-89c4-4079b617437c-2

00:07:57.173 --> 00:08:01.041

all I have to do is, you know,
talk to your field team or talk to me and

e429e4a4-9fe7-4fc7-89c4-4079b617437c-3

00:08:01.041 --> 00:08:05.280

we will get those turned on quickly and
they can just be tested and everything.

90982551-6b2d-4720-ac38-32fa11ee18c3-0

00:08:05.280 --> 00:08:10.131

We just want to make sure that we put
inside of that agreement with the

90982551-6b2d-4720-ac38-32fa11ee18c3-1

00:08:10.131 --> 00:08:15.454

customers that they recognize that this
is not necessarily 100% tried and true

90982551-6b2d-4720-ac38-32fa11ee18c3-2

00:08:15.454 --> 00:08:16.600

for the language.

4f8decf9-9900-4222-a4d5-e968119e32a1-0

00:08:16.600 --> 00:08:22.040

And as they get better data on this,
we will be releasing them to GI.

4b7f46e7-5bd3-475a-bc38-0d2976b90197-0

00:08:22.040 --> 00:08:23.280

It's very agile.

44718318-e04e-4cd8-9831-0bcdefdf4c54-0

00:08:23.320 --> 00:08:25.960

It's very like just flowing at this point,
right?

642640b7-1eb6-4e05-842b-0f8b33e732d3-0

00:08:25.960 --> 00:08:26.680

Like, yeah.

c4810976-3b68-430a-9fe8-7f347291fab9-0
00:08:26.880 --> 00:08:29.840
So there's also a lot of cultural things
that go along with it.

931f7dea-49ae-4db3-96b0-c2d0937ca699-0
00:08:29.840 --> 00:08:32.640
It's not just language because, yeah.

b1445e09-669b-41db-bebe-7d3ad002daf9-0
00:08:33.000 --> 00:08:34.840
So we're going to move on to AI agent.

7b2cf3fc-e779-4f9c-9a70-580bc8896973-0
00:08:35.720 --> 00:08:36.120
All right.

1e50b154-7d0f-43b2-8608-43624975cb84-0
00:08:36.120 --> 00:08:41.433
So positioning AI agent,
positioning Webex as an AI leader,

1e50b154-7d0f-43b2-8608-43624975cb84-1
00:08:41.433 --> 00:08:45.772
when people think of AI and customer
experience,

1e50b154-7d0f-43b2-8608-43624975cb84-2
00:08:45.772 --> 00:08:52.680
the only thing they should be hearing is
Webex CX and AI and Webex CX, right?

4f584489-4e65-4b98-9e4e-3bfc97f9f842-0
00:08:52.920 --> 00:08:54.240
That's all you guys ever need to know.

b6a062fe-1481-4c2e-ab33-a8d9e23f696a-0
00:08:54.560 --> 00:08:57.150
Forget about the other companies,
vendors that are out there providing

b6a062fe-1481-4c2e-ab33-a8d9e23f696a-1
00:08:57.150 --> 00:08:59.120
solutions and it's never going to be as
good as ours.

12d83666-0f92-485a-a7db-325dfef11034-0
00:08:59.680 --> 00:09:02.400

Well, that being said though,
I mean with MCP and A to a that we're

12d83666-0f92-485a-a7db-325dfef11034-1
00:09:02.400 --> 00:09:05.680
going to work with the other companies,
that's the interoperability is a big part

12d83666-0f92-485a-a7db-325dfef11034-2
00:09:05.680 --> 00:09:06.600
of our story right now.

f1101bb4-7627-4fe8-a1e3-04913f98bac8-0
00:09:06.600 --> 00:09:09.369
So yeah,
not to take away from what you just said

f1101bb4-7627-4fe8-a1e3-04913f98bac8-1
00:09:09.369 --> 00:09:11.972
stuff,
but if we get as the concierge in front

f1101bb4-7627-4fe8-a1e3-04913f98bac8-2
00:09:11.972 --> 00:09:13.800
door, that's the important thing.

0630b26f-c9c1-4207-ad06-3d1b5eaf00e4-0
00:09:13.800 --> 00:09:17.800
So I need to be quick about it though,
because Juan needs time.

2e103186-c71b-41b0-a71f-b52de183455a-0
00:09:17.800 --> 00:09:21.040
So, but yeah, guys,
so that's our Gentex solution.

c4b702fd-7e29-4b82-ac9a-4454e253a86c-0
00:09:21.080 --> 00:09:25.320
It can be deployed in autonomous or
scripted, you know, models.

b085e736-c2bb-49e2-8a8a-7a14efff8b6d-0
00:09:25.600 --> 00:09:28.560
There's use cases for each depending on
what we're talking about specifically.

9d2ba52e-bbaf-4b27-9b7d-c1e39c7dd195-0
00:09:29.200 --> 00:09:32.246
But you know,
we have the ability to obviously utilize

9d2ba52e-bbaf-4b27-9b7d-c1e39c7dd195-1
00:09:32.246 --> 00:09:32.800
either or.

8b4b4510-e1a6-4ec3-b497-16b7235aae51-0
00:09:33.480 --> 00:09:34.120
That's probably it.

e667eee9-cdc5-452c-bf2a-a3b6583a3bc7-0
00:09:34.120 --> 00:09:35.648
I mean,
if you're going to go with that as a

e667eee9-cdc5-452c-bf2a-a3b6583a3bc7-1
00:09:35.648 --> 00:09:35.920
summary.

2cc21ac7-8b8b-4fb4-8a7c-51f4c3c1fed1-0
00:09:37.280 --> 00:09:38.040
Oh, I did put these in.

3f7327e4-03fe-4032-bc38-e9934bb921fb-0
00:09:38.040 --> 00:09:38.960
We did put this in.

ad2b45bf-649f-455d-b8fb-6505ca64f479-0
00:09:38.960 --> 00:09:39.680
Whoops, I screwed it up.

7d264a42-b506-4512-88c4-ac214a7c9fb2-0
00:09:39.680 --> 00:09:43.720
All right, so I,
I actually really like talking about this.

7dc462f5-f9d3-4f15-9b34-3507b5a35140-0
00:09:44.360 --> 00:09:50.426
How much time do you think the average AI
agent conversation was lasting with our

7dc462f5-f9d3-4f15-9b34-3507b5a35140-1
00:09:50.426 --> 00:09:55.900
customers that we actually have on AI
agent within you remember that from

7dc462f5-f9d3-4f15-9b34-3507b5a35140-2
00:09:55.900 --> 00:09:56.640
yesterday.

91f3d453-ec1e-4347-8d9d-7f170d8d319d-0

00:09:56.960 --> 00:10:02.600

So this is percentages, so .
44 of a minute.

50df70b2-cf62-483d-9bd4-bbb25f4fdd87-0

00:10:03.240 --> 00:10:04.560

We also have .58.

dedba057-9a0b-4499-af67-43db75dc5c8d-0

00:10:04.560 --> 00:10:08.760

So anywhere from 20 to 35 seconds was
kind of the standard.

f86a9d5f-636b-44f1-91bb-0cd8f3ae5037-0

00:10:09.080 --> 00:10:12.972

And so technically on the old offer we
were going over,

f86a9d5f-636b-44f1-91bb-0cd8f3ae5037-1

00:10:12.972 --> 00:10:18.395

people were actually wasting sometimes up
to a minute and 20 seconds, minute,

f86a9d5f-636b-44f1-91bb-0cd8f3ae5037-2

00:10:18.395 --> 00:10:19.160

30 seconds.

abfe1362-472d-4943-89d7-596e613f48e8-0

00:10:19.480 --> 00:10:21.500

Wait,

2 minute increment bundles is what they

abfe1362-472d-4943-89d7-596e613f48e8-1

00:10:21.500 --> 00:10:21.720

were.

6fa6cf39-7cc7-4106-9be3-5b20fd092ff3-0

00:10:21.960 --> 00:10:22.200

Yeah.

a2310c91-083c-4ba3-8ac9-43cb8f4aeb84-0

00:10:22.200 --> 00:10:24.941

So The thing is,

if you had a 32nd conversation,

a2310c91-083c-4ba3-8ac9-43cb8f4aeb84-1

00:10:24.941 --> 00:10:28.633

it would use quantity 1,

and if it was a minute or 2 1/2 minutes,

a2310c91-083c-4ba3-8ac9-43cb8f4aeb84-2
00:10:28.633 --> 00:10:30.200
it would be used quantity 2.

fe3dbfd4-ef20-484c-a5a9-6507ac19b9f4-0
00:10:30.200 --> 00:10:30.840
And so you're not.

8e3b2c9a-e37a-4277-ac13-4b489e1755e7-0
00:10:31.360 --> 00:10:33.760
The second smile makes so much more sense,
you know, at this point.

92466ccd-a0e5-4cd1-9b82-b647db7dd740-0
00:10:33.760 --> 00:10:36.880
So yeah, this is just for your reference.

0f45a57a-e56d-42d7-b7b2-e9682f05f830-0
00:10:36.880 --> 00:10:40.113
So you know,
this and the tools that we'll be using

0f45a57a-e56d-42d7-b7b2-e9682f05f830-1
00:10:40.113 --> 00:10:45.335
for the return on investment calculating
tomorrow will be based upon the new offer,

0f45a57a-e56d-42d7-b7b2-e9682f05f830-2
00:10:45.335 --> 00:10:48.320
even though technically it hasn't been
updated.

d52fdbaa-0785-4f57-9d15-055113aa9de0-0
00:10:48.360 --> 00:10:51.170
Although Andrew Camera told me we don't
even need a tool anymore because now

d52fdbaa-0785-4f57-9d15-055113aa9de0-1
00:10:51.170 --> 00:10:53.360
we're down to seconds, you know,
so we still need the tool.

76214687-580d-4c2c-a0eb-37ae1d38a103-0
00:10:53.440 --> 00:10:58.569
This is most likely going to be something
that is better served with the scripted,

76214687-580d-4c2c-a0eb-37ae1d38a103-1
00:10:58.569 --> 00:11:03.575
but we do also hope that more and more

customers are going to go out a limb with

76214687-580d-4c2c-a0eb-37ae1d38a103-2
00:11:03.575 --> 00:11:05.800
autonomous and actually put that in.

b4637775-12f3-4514-881a-265282b32168-0
00:11:05.800 --> 00:11:12.264
It's relatively fast to implement as you
for partners and it it also gives the

b4637775-12f3-4514-881a-265282b32168-1
00:11:12.264 --> 00:11:19.137
biggest amount of bandwidth on being able
to truly customize that solution for that

b4637775-12f3-4514-881a-265282b32168-2
00:11:19.137 --> 00:11:23.720
customer with a little to no partner
major interaction.

084487a6-309d-405b-be2e-7d6c2e5737f7-0
00:11:24.080 --> 00:11:25.200
It's the same part number.

327b2abd-b808-4022-98bd-1606f9b86e6e-0
00:11:25.200 --> 00:11:26.520
And I know this is going to sound weird.

b4e192e1-f920-48e2-8087-f000af406beb-0
00:11:26.520 --> 00:11:29.807
They say autonomous is more expensive,
but it's like you don't get as many,

b4e192e1-f920-48e2-8087-f000af406beb-1
00:11:29.807 --> 00:11:31.970
you know,
seconds at this point as you would have

b4e192e1-f920-48e2-8087-f000af406beb-2
00:11:31.970 --> 00:11:32.360
scripted.

28ae92d0-334c-4d60-843f-a359d980394b-0
00:11:32.360 --> 00:11:34.600
So yeah,
it's the best way I could describe it.

7e201ca6-a80a-4da6-ac17-52a5652aefb8-0
00:11:35.280 --> 00:11:36.320

AI, OK, responsible AI.

df7c5be8-1a77-4f27-a4a9-092e27c724b6-0
00:11:36.360 --> 00:11:40.000

So Jeremy already talked about this in his session this morning.

c7fc97fc-ca75-4705-9c22-ff1d4596a98d-0
00:11:40.000 --> 00:11:41.960

I think he covered this pretty well.

9accaf47-c3fd-4131-af94-5fbf11472f5d-0
00:11:41.960 --> 00:11:45.333

Like as far as Cisco, that's one of the things be confident in

9accaf47-c3fd-4131-af94-5fbf11472f5d-1
00:11:45.333 --> 00:11:48.760

our solution that, you know, security is built into what we do.

c05bbd29-ebd6-4933-94d9-205d10f80e37-0
00:11:49.720 --> 00:11:53.620

And So what we have is we have, if you guys have not been to it,

c05bbd29-ebd6-4933-94d9-205d10f80e37-1
00:11:53.620 --> 00:11:58.360
the trust portal, trust.portal.cisco.com, it goes through all of our products.

aaf5b9c2-7b9a-451c-971c-8b0688518d41-0
00:11:58.360 --> 00:11:59.440

We've got CX up there.

2ec7c986-ba05-4586-9e2f-6accf19e5a1d-0
00:11:59.440 --> 00:12:02.256

We've got the AI agent, we've got some of the I probably don't I

2ec7c986-ba05-4586-9e2f-6accf19e5a1d-1
00:12:02.256 --> 00:12:03.600
wouldn't see one for AI assist.

a77dfebe-f81b-41e0-8ee4-8fa3a820051c-0
00:12:03.960 --> 00:12:05.560

I wouldn't see one for AI assistant.

9e659927-37cf-4e20-b76b-62dfc439ec82-0
00:12:05.560 --> 00:12:07.851

But it's like if you want to look up what real time assist,

9e659927-37cf-4e20-b76b-62dfc439ec82-1
00:12:07.851 --> 00:12:09.800
they'll have one on that, you know,
at this point.

7af9a2b8-6419-40a1-abcc-f03455e48b00-0
00:12:09.800 --> 00:12:12.880
So it's accessible to partners,
share it with your customers.

71a24025-b013-4090-9f56-a64b37edeb16-0
00:12:12.880 --> 00:12:14.600
It's called transparency notes as what
they are.

ec69a49c-301d-4973-866a-447e1cf07527-0
00:12:14.600 --> 00:12:18.716
And so this is going through a demo of
just an agent burnout detection that was

ec69a49c-301d-4973-866a-447e1cf07527-1
00:12:18.716 --> 00:12:22.626
on there on some of the on the actual
technical notes, how it's doing that,

ec69a49c-301d-4973-866a-447e1cf07527-2
00:12:22.626 --> 00:12:25.559
what it's doing,
where the limitations are those kind of

ec69a49c-301d-4973-866a-447e1cf07527-3
00:12:25.559 --> 00:12:25.920
things.

e3947434-88b7-4e92-8241-4ff4be09b970-0
00:12:25.920 --> 00:12:30.600
But we also have it from things like the
a agent, what LLM are we using?

dded9d83-a27b-4d4a-9593-a0735d2837f7-0
00:12:30.600 --> 00:12:32.193
You know,
and The thing is that's evolving over

dded9d83-a27b-4d4a-9593-a0735d2837f7-1
00:12:32.193 --> 00:12:32.360
time.

7a320c26-87b3-4eb6-abef-c6a53e9d67ad-0
00:12:32.400 --> 00:12:33.240
All that data is in there.

b25014a8-5d73-4141-a5f7-fe4119188352-0
00:12:33.240 --> 00:12:35.298
And so The thing is,
if your customer asks you that,

b25014a8-5d73-4141-a5f7-fe4119188352-1
00:12:35.298 --> 00:12:37.978
this is where I recommend you guys go to
check first, you know, for,

b25014a8-5d73-4141-a5f7-fe4119188352-2
00:12:37.978 --> 00:12:38.600
for all of that.

24e82945-9730-4d50-90c9-e9f6e476caf9-0
00:12:39.240 --> 00:12:39.480
Yeah.

3854d991-268b-4ba8-beeb-6d4cc0e3b691-0
00:12:39.480 --> 00:12:43.360
And I'm actually really impressed at how
quickly they're updating that information.

d59e957d-5534-44be-84ca-65d73df7270d-0
00:12:43.360 --> 00:12:44.720
Big time, big time.

e74678e9-c4e3-4b81-a20f-414d99ca91e7-0
00:12:44.720 --> 00:12:45.960
Why do you think it's one of my
favourites?

f0eb3990-6fde-4d3b-a90b-cc4991b80971-0
00:12:46.840 --> 00:12:49.480
So what do you expect when you're looking
at a transparency note?

f0755af6-867e-4a29-86bf-1ca35e4e6738-0
00:12:50.440 --> 00:12:52.680
Well, OK, I'm just,
I'm not going to highlight a couple

f0755af6-867e-4a29-86bf-1ca35e4e6738-1
00:12:52.680 --> 00:12:52.960
things.

9c85a249-5e8b-470f-b5bd-0007730f3140-0
00:12:53.480 --> 00:12:56.474

The AI model structure,
it does actually spell it out and give

9c85a249-5e8b-470f-b5bd-0007730f3140-1
00:12:56.474 --> 00:12:57.520
you the details on it.

323e5a3e-c7e4-47ac-9d52-29efc89304ed-0
00:12:57.760 --> 00:13:00.520
It'll actually show how they how they,
they interact as well.

686af9e3-5b07-42e6-b7e7-88ee83fb97ac-0
00:13:00.520 --> 00:13:01.600
So that's very, very cool.

2569af1a-d7a0-4b5f-a53a-30be4a5a5d14-0
00:13:02.240 --> 00:13:04.986
Again,
talking about model inputs and outputs,

2569af1a-d7a0-4b5f-a53a-30be4a5a5d14-1
00:13:04.986 --> 00:13:09.720
guide guidelines, guard rails, you know,
that'll it covers some of that as well.

8a942e95-526c-44b6-8633-64f4be88a17f-0
00:13:09.720 --> 00:13:10.320
And that as well.

7af25655-bf75-4786-9f83-3143a74d640c-0
00:13:10.320 --> 00:13:14.520
So it's, it's, it's very thorough.

efafe0f2-8e79-45d6-98a2-c0afc46ea34c-0
00:13:14.520 --> 00:13:17.543
That's the one thing that I like about it
because it usually starts with an

efafe0f2-8e79-45d6-98a2-c0afc46ea34c-1
00:13:17.543 --> 00:13:19.612
overview,
then it gives you the diagram and then it

efafe0f2-8e79-45d6-98a2-c0afc46ea34c-2
00:13:19.612 --> 00:13:22.000
it talks about the diagram breakdown,

you know, after that.

beaa3f27-6cbd-4608-a49b-53ae22fccb96-0
00:13:22.280 --> 00:13:24.040
That's typically what the makeup is.

a18c90c5-284d-4376-8f9a-31a30298b599-0
00:13:25.760 --> 00:13:27.853
I will say this,
don't just keep the document on your

a18c90c5-284d-4376-8f9a-31a30298b599-1
00:13:27.853 --> 00:13:30.411
desktop though, because to our point,
they're evolving, you know,

a18c90c5-284d-4376-8f9a-31a30298b599-2
00:13:30.411 --> 00:13:33.280
as things change, we've changed LLM's,
you know, and things of that sort.

6f59b229-2f03-4f87-bb50-cb7715a7faa0-0
00:13:33.280 --> 00:13:36.374
So, yeah,
but we do have a lot more options and I,

6f59b229-2f03-4f87-bb50-cb7715a7faa0-1
00:13:36.374 --> 00:13:39.165
I'm always shocked by how many,
not you guys,

6f59b229-2f03-4f87-bb50-cb7715a7faa0-2
00:13:39.165 --> 00:13:42.805
but partners out there that don't
recognize how much we're,

6f59b229-2f03-4f87-bb50-cb7715a7faa0-3
00:13:42.805 --> 00:13:47.720
we are doing to try to support you guys,
especially from the partner side of it.

c772cb7c-014b-43d2-918c-8e1004e17bdd-0
00:13:47.720 --> 00:13:49.320
I mean,
you guys always work with the field.

168b98f3-c713-4ae1-88dd-9a8cf1738edc-0
00:13:49.680 --> 00:13:52.812
So you have that support,
but we also have resources as well that

168b98f3-c713-4ae1-88dd-9a8cf1738edc-1
00:13:52.812 --> 00:13:56.040
we can try to help and get those things
initiated when you need to.

983585ff-6fec-4226-ae80-afbeb0a1edd1-0
00:13:57.440 --> 00:13:58.680
All right, we're done.
