What is it?

Cisco AI Assistant for Support offers customers and partners a self-service experience for common case, bug, RMA inquiries and basic transactions. It even can connect customers with case owners, managers
and TAC duty managers.

Benefits

- Easy to access
- Easy to use
- Seamlessly connect to an Engineer
- No need to call 1-800

© 2025 Cisco and/or its affiliates. All rights reserved. Cisco Public

Self-Service Experience for TAC Engagements

Get Things Done Quicker Without Waiting in Queue

Get status

Case, Bug, RMA

Update

Update case, Upload files and Request update (GenAI based real-time summary)

Subscribe

Case summary updates, case severity, status changes, Proactive TAC Alerts

Connect

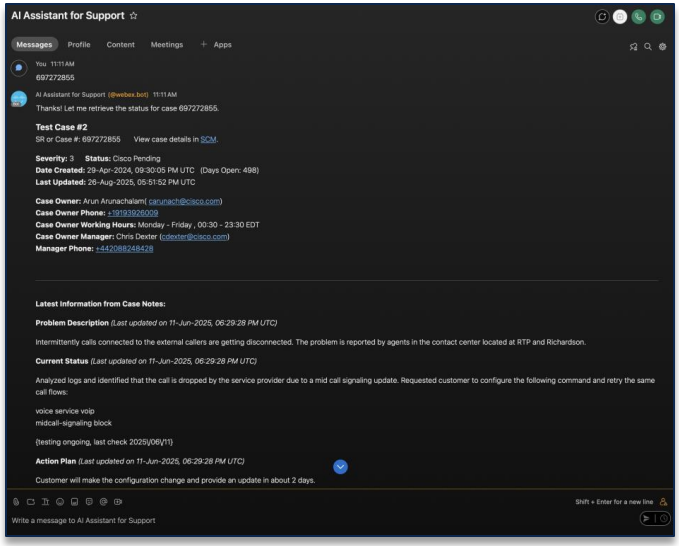

Engineer via Virtual Spaces, Virtual Meeting or Phone Callback

Initiate

Request new engineer, Schedule dispatch, Raise severity, Reduce severity
Escalate case, Close case, Add Contract

Be Proactive

Proactive TAC Alerts, Bug Applicability Checks & IOS XE SW Hardening Assessments

Natural language and text commands

For Customers

How to escalate a technical support case

If you have opened a service request and are not satisfied with the progress, use the following procedure to escalate and connect directly to a resolution owner

- Escalate using Cisco AI Assistant for Support at https://supportassistant.cisco.com/escalate, via Webex App, on Support Case Manager or Virtual Spaces
  - Enter case number
  - Provide escalation reason
  - Choose “Escalate to TAC Manager”
  - Provide phone number for S1/S2 case or email address for S3/4 case

Severity Definitions

Severity 1
Critical impact on business operations. Cisco hardware, software, or as-a-service product is down.

Severity 2
Substantial impact on business operations. Cisco hardware, software, or as-a-service product is degraded.

Severity 3
Minimal impact on business operations. Cisco hardware, software or as a service product is partially degraded.

Severity 4
No impact on business operations. Features, implementation, or configuration assistance.

Webex Interface

Prerequisite

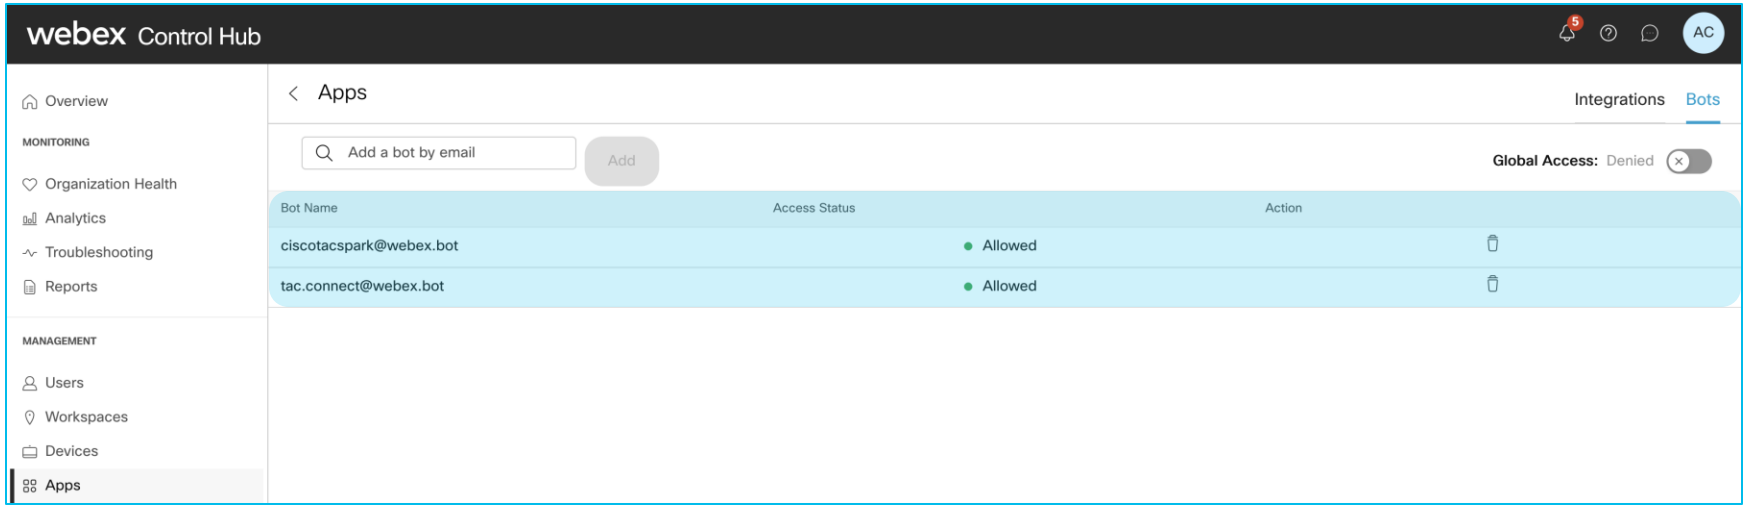

- **What** – The email address that is used to login to Webex **MUST** be the primary email address associated with your Cisco.com profile. https://rpfa.cloudapps.cisco.com/rpfa/profile/profile_management.do

- **Why** – To protect customer data.

- **How** – The email address of Webex user account is mapped to Cisco.com user-id. This user-id is used to authorize case, bug and RMA data access.

© 2025 Cisco and/or its affiliates. All rights reserved. Cisco Public

Prerequisite

If access to bot is disabled in your Webex site, please allow access to tac.connect@webex.bot and ciscotacspark@webex.bot for Cisco TAC interactions.

Help

help

Hello! I can help you get case, bug and RMA details and connect with Cisco TAC. You can make the following requests in English language:

- my cases
- what is the case status (case number)
- what is the bug status (bug number)
- what is the rma status (rma number)

You can ask me to perform the following tasks:

- connect with engineer (case number)
- create a virtual space (case number)
- request an update (case number)
- update the case (case number)
- add participant (email address)
- raise severity (case number)
- requeue (case number)
- escalate (case number)
- close the case (case number)
- reopen the case (case number)
- add contract (contract number)

You can mark a case as favorite and get automatic notifications when the case summary (Problem Description, Current Status and Action Plan) gets updated:

- favorite (case number)
- list favorites
- status favorites

You can ask me to connect to support teams:

- connect to duo

You can ask me to check whether a bug is applicable to your device (supported bugs):

- check bug applicability (bug number)

I can help you manage cases that are opened from Cisco.com Support Case Manager. Currently, I can't open new cases or answer technical questions. Type **"/list commands"** to get a list of command requests and find details of supported features using the documentation and demo videos.

Q&A: Support, Contracts, Subscriptions & Certifications

You Nov 10, 2025, 12:17:33 PM

how to open a splunk case

Assistant Nov 10, 2025, 12:17:47 PM

Important. Results generated by AI. Before using results, verify accuracy and completeness.

To open a Splunk case, follow these steps:

Log in to the Splunk Support Portal at Splunk.com.
Select “Create Case” from the portal navigation.
Choose the case type (for technical issues, Splunk Cloud changes, apps & add-ons support, or account issues, select "Support").
Select your product (e.g., Splunk Cloud).
Choose the category that best fits your issue (such as Cloud Change Request, Apps and Add-ons Support, Admin Services, etc.).
Complete the required fields and submit your case.
For P1 (critical) cases, you should contact Splunk Support via telephone using the region-specific numbers found on the support page. For all other cases (P2-P4), use the portal.

You will need your name, email, company name, and Splunk entitlement number to submit a case. If you need to upload diagnostic files, you can do so during case creation or by editing the case afterward.

Let me know if you need more details about any step!

Q&A: Support, Contracts, Subscriptions & Certifications

You Nov 10, 2025, 12:18:12 PM

how to get Meraki shipping label

Assistant Nov 10, 2025, 12:18:18 PM

Important. Results generated by AI. Before using results, verify accuracy and completeness.

To get a Meraki shipping label for a warranty replacement or product trial return, you need to request a Return Materials Authorization (RMA) through the Meraki dashboard:

Log in to your Meraki dashboard.
Go to Help > Get help and contact Meraki support to troubleshoot your issue.
Complete the RMA request form in the dashboard.
If your RMA request is approved, Cisco Meraki will email you an RMA number and a pre-paid return shipping label.
The shipping label is provided free of charge for warranty and trial returns in supported regions. Make sure to use the original packaging or a suitable carton for the return, and write the RMA number clearly on the outside of the box.

If you need advance replacement or have questions about the process, you can also call Meraki technical support.

Let me know if you need more details about any step!

Q&A: Support, Contracts, Subscriptions & Certifications

You Nov 10, 2025, 12:21:02 PM

I took my exam two weeks ago but I haven't received my certificate

Assistant Nov 10, 2025, 12:21:12 PM

Important. Results generated by AI. Before using results, verify accuracy and completeness.

After passing your Cisco certification exam, you should receive an email within 24 hours with instructions for completing the fulfillment process. You must follow the steps in that email to trigger the delivery of your certificate. Once you complete the process, you will receive:

A PDF version of your certificate

A downloadable certification logo

The option to request a printed certificate (shipping takes 6–8 weeks)

A digital badge (via Acclaim)

If you have not received your certificate after two weeks, please check your email (including spam/junk folders) for any messages from Cisco. Also, make sure your contact information is up to date in the Cisco Certification Tracking System.

If you still have not received the email or certificate, you may need to contact Cisco support for assistance through the Certification Tracker portal.

Would you like help with updating your contact information or contacting support?

Latest Release-Notes in Web Interface

Hello!

Thanks for taking the time to use me. Please find the latest Release-notes below.

July 31, 2020

Enhancements:

- You can request a case to be re-opened if it was closed within the last 14 days.
- You can request a case to be schedule dispatched by specifying the date, time and time zone.
- Link to Release-notes is available in web interface.

Bug Fixes:

- Case title is missing in "my cases" response. This is applicable only for Webex Teams desktop clients.
- Concurrent requests of the same type (e.g. connect to engineer) must not be allowed.

June 28, 2020

Enhancements:

- Interact with me in the external virtual space associated with the TAC case.

June 26, 2020

Enhancements:

- You can request to be contacted via email for escalation follow-up.

Bug Fixes:

- %20 is displayed in Engineer and Manager phone number instead of space character.

May 29, 2020

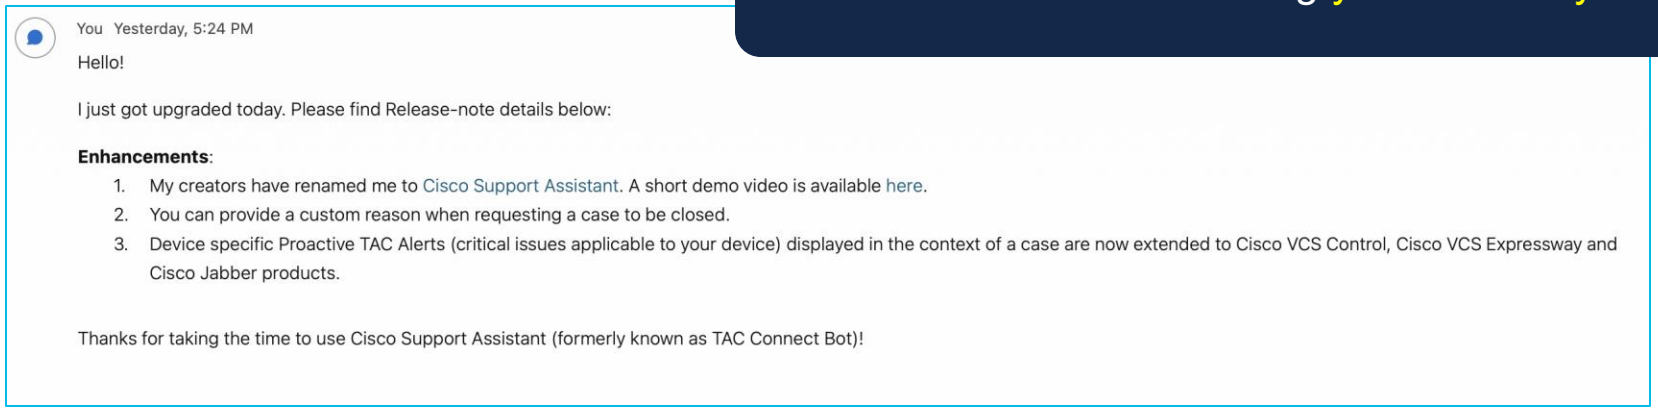

Enhancements:

- Phone number input made easy in web interface!
- Case owner manager information is shown in case status response.
- The definition of case escalation is explained and confirmation obtained prior to escalation.
